JOURNAL OF
Advanced Transportation

VOLUME CONTENTS 2010

Volume 44 Number 1 **January 2010**

Special issue: Current Issues of Public Transportation

Guest Editors: Seungjae Lee, Dongjoo Park and Chungwon Lee

Editorial

Current issues of public transportation
S. Lee, D. Park and C. Lee 1

Special Issue Papers

Analysis of travel patterns between road and transit-oriented development areas
S. Lee, S. Lee, D. Park and C. Lee 3

Analysis of work trips made by taxi in Canadian cities
L. Kattan, A. de Barros and C. S. C. Wirasinghe 11

Access mode choice behaviors of water transportation: a case of Bangkok
D. Park, S. Lee, C. Kim, C. Choi and C. Lee 19

Severity of urban transit bus crashes in Bangladesh
U. Barua and R. Tay 34

Error correction of arrival time prediction in real time bus information system
S. Kim, C. Lee, Y. Kim, S. Lee and D. Park 42

Volume 44 Number 2 **April 2010**

Research Articles

Increase of metro line capacity by optimisation of track circuit length and location: In a distance to go system
J. Gonzalez, C. Rodriguez, J. Blanquer, J. M. Mera, E. Castellote and R. Santos 53

Modelling passengers, buses and stops in traffic microsimulation: review and extensions
C. E. Cortés, V. Burgos and R. Fernández 72

Comparison of updating techniques in transferability analysis of work trip mode choice models in developing countries
D. S. Santoso and K. Tsunokawa 89

Level of service analysis for airport baggage claim with a case study of the Calgary International Airport
A. R. Correia and S. C. Wirasinghe 103

Characterization and comparison of traffic flow on reversible roadways
L. Lambert and B. Wolshon 113

Volume 44 Number 3 **July 2010**

Research Articles

Testbed for evaluation of vehicular detection systems
M. V. Chitturi, J. C. Medina and R. (Ray) F. Benekohal 123

Applying the Rasch measurement to explore elderly passengers' abilities and difficulties when using buses in Taipei
H. Chang and S. Wu 134

Investigating effects of asphalt pavement conditions on traffic accidents in Tennessee based on the pavement management system (PMS)
C. Y. Chan, B. Huang, X. Yan and S. Richards 150

The analysis of motor vehicle crash clusters using the vector quantization technique
L. Mussone and K. Kim 162

Modeling and simulation of vehicle projection arrival–discharge process in adaptive traffic signal controls
F. C. Fang and L. Elefteriadou 176

Hybrid model for prediction of bus arrival times at next station
B. Yu, Z.-Z. Yang, K. Chen and B. Yu 193

Bus rapid transit operation analysis using the Downs–Thomson paradox
S. Lee, S. Ryu and S. Lee 205

Volume 44 Number 4 **October 2010**

Special Issue: Recent Advances in Traffic Control and Management

Guest Editors: Saman Bandara, Hong K. Lo and S. C. Wong

Editorial

Recent advances in traffic control and management
S. Bandara, H. K. Lo and S. C. Wong 217

Special Issue Papers

A risk-averse user equilibrium model for route choice problem in signal-controlled networks
W. H. K. Lam, K. S. Chan, Z.-C. Li, and M. G. H. Bell 219

A spatial queuing approach to optimize coordinated signal settings to obviate gridlock in adjacent work zones
C. K. Wong, S. C. Wong and H. K. Lo 231

Capacity evaluation of multi-lane traffic roundabout
J. Bie, H. K. Lo and S. C. Wong 245

Assessing the on-road route efficiency for an air-express couriery
E. T. J. Lin, L. W. Lan and C. S. T. Hsu 256

Identifying key risk factors in air traffic control by exploratory and confirmatory factor analysis
Y.-C. Chiou and Z.-T. Chen 267

Volume Contents iii
